

# Karpathy GPT-2 124M: data-distribution shift FineWeb → OWT

(A) Per-head PR across the FineWeb → OWT boundary

(B) BOS-attractor fraction across the boundary

(C) Induction-circuit identity stability: Jaccard = 1.00 (shared = 5, FW-only = 0, OWT-only = 4) (D) Selectivity through OWT for FineWeb-endpoint induction heads
